

NOTICE FOR PUBLICATION
Serial No. 010042

Department of the Interior, U. S.
Land Office at Carson City, Nevada,
August 19, 1921.—That John
Lauzon, of Austin, Nevada, who, on
April 21, 1917, filed a Homestead
Claim, Survey No. 155, con-
taining 56.34 acres, Section 12, and
Range 15, in the Bureau of Land
Management, has filed notice
to withdraw his claim for a three-year period
from the time he made his
entry, in E. Glass, County
of Tonopah, Nevada, on the
10th day of August, 1917, and
that he is named as witness.
John Henry, of Belmont, Nevada,
Witness of Austin, Nevada;
William J. Potts, of Potts, Nevada;
John W. Potts, of Potts, Nevada;
Minnie L. BILLY,
Resident.

TONOPAH & GOLDFIELD
RAILROAD COMPANYSTEADY OUTPUT
IS MAINTAINED
BY DIVIDE EX.

Operations at the Divide Extension
in the Divide district are rapidly
forcing that property in the front
rank as a producer of great merit.
The production, consisting of 33 tons
daily, is being maintained, and the
average value of the product since
shipments were inaugurated some
time ago has averaged \$67.01 a ton.
This property has been giving a
splendid account of itself for quite
a period and the work is improving
as development is carried
forward. Many improvements have
been made about the workings in
late weeks and the management is
working hard on making a produc-
tive trend that will be continued
throughout the winter months.

The latest report of Edward Bay-
nes, the superintendent, for the week
ended Aug. 14 follows:

"Mine is still maintaining
an average of ore, averaging 33
tons per day, or an average value in
date of \$67 per ton."

Work for the past week consisted
of advancing the shaft to the 200 level
at a distance of 21 feet.

"Now a raise to the 100 level was
advanced 16 feet in good grade of
ore."

A new blacksmith shop has been
erected at No. 2 mine so as to ex-
pedites the sharpening of steel."

Patronize Bonanza advertisers and
be assured of fresh goods at mod-
erate prices. Remember the live
merchant is the advertising mer-
chant.

Visit Butler's Soft Drink Parlor
We serve soft drinks, candies, cigars,
tobacco, fruit and tamales. Located
at intersection of Main and Florence
street, next door to Chalotovitch &
Reko's old stand. Adv.

ARROWHEAD IS
SCENE OF MINE
CONSTRUCTION

The MacNamara mill was started
on Saturday in treating a quantity
of ore of a high-grade character
from the main Arrowhead mine,
which has been gradually accumulat-
ing during the past few weeks.
Mine samples show values of from
\$60 to \$100 a ton, and a neat little
nesting should be rented from the
milling of this product.

During the past week supplies of
lumber have been delivered to the
mine workings at Arrowhead, and a
force of men is now employed in
timbering the shaft down to the 300-
foot level preparatory to the resumption
of sinking operations. As an-
nounced exclusively in this paper a
week ago, the shaft is to be lowered to
the 600 foot point, and it is ex-
pected to have the work in progress
in a comparatively short time.

The financial end of this company
seems to have been settled, and
eastern and western capitalists have
agreed to provide the necessary cap-
ital, with which to carry all plant to
a successful termination. In due
course of events it is proposed to
construct modern milling plant at
the seat of operations to bring the
cost of ore treatment down to a
minimum and eliminate the transpor-
tation charges.

During the last week Charles J.
Plumhoff, the secretary, accom-
panied by Mr. J. Dreyfuss, visited
the property in company with Pete
Fox, the superintendent. They were
shown over the property and found
everything in perfect order.

BIG M'NAMARA
MILL OPERATES
ON FULL TIME

The MacNamara mill is running
steadily and a heavy tonnage of ore
is being treated with the usual high
degree of values. Shipments are ar-
riving daily from various properties
throughout the district and the bins
are kept filled to overflowing, which
is an assurance that the machinery
will be kept in operation for an in-
definite period without fear of inter-
ruption.

In the mine workings development
is being performed principally by
leaves and good tonnages of ore are
being broken. This property is one
of the steady producers of the dis-
trict and can always be relied upon
to give a good amount of itself.

Shipments from the Divide Extens-
ion still continue to be received at
the rate of 33 tons daily, while other
properties are favoring the
mill with substantial tonnages.

The Bonanza carries TWICE as
much NEWS as any paper in this
section. Comparison invited.

PYTHIAN GRAND
LODGE SELECTS
NEW OFFICERS

Election and installation of officers
in the grand lodges of the Knights
of Pythias and Pythian Sisters oc-
curred the private part of Pythian
convention in Reno. The election resulted in
the election of F. H. Hawley of
Carson City as grand chancellor of
the Knights of Pythias grand lodge
and of Eddie Blackwell of Goldfield
as grand chief of the Pythian Sisters.
Blackwell succeeds P. A. C.
Graham of White in head of the
order in Nevada, while Mrs.
Mary Mary of Las Vegas becomes
grand matron of the Pythian Sisters.

K. of P. Officers

The other officers elected by the
Knights include P. E. Baker of Lava-
Hot Springs, vice-chancellor; Roy T.
L. Jackson, sergeant-at-arms; and
S. H. Remond of Goldfield, grand keeper
of records and auditor. At the same
time the Pythian Association of
Knights E. Gifford Hobart of Goldfield
was elected treasurer, and W. H.
Keller of Goldfield was elected a
deputy grand master. Charles E.
Clegg of Goldfield was elected
treasurer of the Pythian Sisters.

Pythian Sisters

The other officers of the Pythian
Association include Mrs. Elizabeth
Patterson of Goldfield, grand
matron; Eddie Thompson of Goldfield,
grand keeper of records; and
Sarah Somers of Goldfield,
grand treasurer. Beulah Chapman
of Goldfield, sergeant-at-arms; and
Mrs. George C. Patterson of Goldfield
were elected grand matrons. Miss
Julia Bottomly of Goldfield, grand
matron, was elected grand
matron of the Pythian Sisters.

A COUPLED styles in silhouette due
to differences in costume fringe
will appear in every young woman.
The smartness of one style indicates
that it is meant for those
who are more than the right
style of clothes, especially in
luxury. The other is concerned
by someone trying to appear
as though she had a slender
figure and a long neck.
The first is cut at the right
angle, with the fringe
at the bottom of the
collar and the fringe
at the bottom of the
skirt. The second is
cut at the right angle
and the fringe
at the bottom of the
skirt. The third is
cut at the right angle
and the fringe
at the bottom of the
skirt. The fourth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The fifth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The sixth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The seventh is
cut at the right angle
and the fringe
at the bottom of the
skirt. The eighth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The ninth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The tenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The eleventh is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twelfth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirteenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The fourteenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The fifteenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The sixteenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The seventeenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The eighteenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The nineteenth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twentieth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-first is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-second is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-third is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-fourth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-fifth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-sixth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-seventh is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-eighth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The twenty-ninth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-first is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-second is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-third is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-fourth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-fifth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-sixth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-seventh is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-eighth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The thirty-ninth is
cut at the right angle
and the fringe
at the bottom of the
skirt. The forty-first is
